INTRODUCTION

JOIN US IN BUILDING THE POWER TO OUTPACE BITCOIN WHILE HODLING DIGITAL TREASURE!

CubToken's ecosystem starts with foundations and build on each other. Security, Scalability, and Decentralization. CubToken adoption is powered by the qualified community of CubToken's ecosystem.

What is CubToken?

CubToken is a blockchain-based “ERC20” asset with similar functionality to bitcoin, ether, and bitcoin cash: it can hold value and be sent and received. The main difference between CubToken and other cryptocurrencies is that CubToken was deployed and hosted on the Ethereum blockchain, considering that bitcoin and bitcoin cash are the native currencies of their respective blockchains. CubTokens are stored and sent using Ethereum addresses and transactions and it uses something called gas to cover transaction fees.

Why CubToken?

The CubToken asset is built on top of the Ethereum blockchain, the 2nd largest blockchain in the world. It is fast with a block time of 15 seconds, and it's an official protocol for proposing improvements to the Ethereum (ETH) network. ERC stands for Ethereum Request for Comment, and 20 is the proposal identifier. CubToken standard defines a set of rules that apply to all ERC20 tokens that allow them to interact seamlessly with one another. Wallets and exchanges will use this standard to integrate CubToken onto their platforms and facilitate liquid flow between CubTokens and other cryptocurrencies. CubToken is extremely scalable, able to reach multi-million USD while remaining only a fraction of a penny in price. Hands down, CubToken-CUBT is the best. Soon CubTokens will be available on the polygon chain. This will eliminate gas fees for users.

Where Does CubTokens Value Come From?

CubTokens value comes from integrating onto platforms that facilitate exchanges between CubTokens and other Cryptocurrencies. CubToken’s liquidity through Decentralized platforms that utilize automated market makers (AMM) systems like Uniswap play a key role in the value. Supply and demand, red and green crypto markets, buying, selling, sending, bots, liquidity pools, and things like these are just a few of many variables that give CubToken its value.

What is CubToken Utility?

CubToken first deployed in May of 2021. CubToken was created to help bridge the gap of understanding between the centralized mindset and the decentralized movement. CubToken has created a Crypto-Friendly Web 3.0 Verification Badge “NFT”. This badge identifies Web 3.0 crypto friendly interfaces as accepting and supporting blockchain technology. CubToken NFT holders are qualified to receive a instant reward of 2,500 CUBT tokens upon signing up to the ChingUp wallet. The crypto to cash integration which provides instant deposit capability is the CUBT utility use case.

ABSTRACT

Welcome to CubToken....

CubToken was created in May 2021 with the goal of being a decentralized project with true purpose.

CubToken's mission is to bring popular cryptocurrency concepts to the mainstream. Unlike older, comparable projects, CubToken introduces holders to next-gen concepts such as frictionless yield, NFTs, decentralizedexchanges, and crypto to cash instant deposit.

The CUB Force consist of volunteers community members that support project growth indefinitely.

Cub Pool consists of 30 Trillion CubTokens being distributed via marketing campaigns.

CUBToken badge is a Web 2.0 - SEO introduction to Web 3.0 development, this allows verified community holders to backlink to cubtoken.com

CubToken's Ingenuity...

SELF GENERATING LIQUIDITY - TOWNMINER
Yield Farming POS, liquidity provider, that increases value for the purpose of expanding Cubtoken liquidity pools across DeFi platforms

CUBT-POLYGONSCAN
Cubtoken's interoperability to facilitate transactions on the Polygon blockchain, eliminating gas fees for CubForce community.

OPENSEA
CubToken Marketplace for NFT distribution and collectables listed for sale. That include but not limited to: Art work, Reward benefits, collectibles, documents, real estate, etc.

METAMASK WALLET
Wallet where CubForce community can swap ETH for CUBT right from cubtoken.com

CUB CAVE
Merchandise store to allow CubToken holders to proudly promote CubToken in the real world, with all proceeds supporting Cubtoken's growth.

VALUES

TRANSPARENCY

CubTeam encourages our community members to do their own research. The research of the Cubtoken Project will result in findings of all the information needed in order for each individual to gain confidence in the support of this project.

COMMUNITY

Ultimately, CubToken is owned by the community, meaning we encourage group efforts related to marketing, development, community management and more.

TRUST

In the cryptocurrency market, Trust is paramount. That means not only providing transparency, but also security related to holder funds. Examples include audits of CubToken's code, and liquidity tokens being burnt to eliminate risk of malicious behavior.

LONGEVITY

CubToken is in it for the long haul. Our plans are for long-term development of the ecosystem which result in an investment beyond any temporary trends.

CUBTOKEN

CubToken is an ERC20 token launched on the Ethereum blockchain in May 2021.

The max supply is 1 quadrillion capped, and functionality is instant crypto to cash deposit integration. The unminted is 500 trillion. CubTokens burned to dead wallet 330 Trillion never to return. A circulating supply of 170 Trillion.

CubToken contract has security features and is in the progress of being audited for holder confidence.

ENVIRONMENT

CUBTSWAP

CUBT SWAP is a decentralized exchange (DEX) where users can swap any ERC20 token for another one. - In Progress

It is powered by Uniswap, the largest and safest DEX in the world and acts as the foundation on which CUBT will develop functionality for CubToken holders.

CUBFORCE

CUBForce is the official partner startup memberships:

New Born Cub: 0.05 ETH for CUBT x3

Baby Cub: 0.10 ETH for CUBT x2

Grizzly Cub: 0.33 ETH for CUBT x0.5

Moma Bear: 3.3 ETH for CUBT Equivalent

Papa Bear: 33.0 ETH for CUBT Equivalent

King Cub: 330.0 ETH for CUBT Equivalent

CUB CAVE

CUB Cave takes CubToken to the mainstream by allowing holders to represent CubToken in the wild with official merchandise.

Holders can pay using cryptocurrency and proceeds support future CubToken development.
